In his address the Prince told of the effacing the resulting impression by riding newer body are former Senator Samuel Pasco, of The new Commission's duties consist in deter. enemies? warm approval with which that other riotous agitator, Queen Victo- a lady and hung on a strap every time ria, regarded this development of public enterprise. "Her Majesty," he said, "desires me to express the great interest she has always taken Republican associations most of the time, in the Post Office Savings Bank and the gratification with which she democracy in the campaign by playing to the To the Editor of the Journal: has watched the business it transacts attain to its present propor- gallery. On one occasion he unbent by tak-

She rejoices at the stimulus to thrift, commerce and industry conferred by a system which has throughout worked so admirably, and has reflected the highest credit on those ing in his shirt sleeves, although he had a above passage and in substantiation of the accuracy connected with its administration, and which, while it brings facilities to every man's lot of money, beat young Mr. Fassett by door, is based on the firmest security.

She trusts that the inauguration of these buildings will yet further increase the popularity of the Post Office Savings Bank, and will lead to corresponding benefits to those who invest in this bank, and especially to the working classes.

The British postal savings bank system now cares for over \$600, the manifesto he issued yesterday, with its put a mark, that every man may know his town 000,000 belonging to 7,000,000 depositors. The holder of an account in that bank possesses a letter of credit that will put him in funds in any town or village of Great Britain in which there is a post office. Anybody in the United Kingdom can have the post office insure his life. If he has a single penny in his pocket he can buy a stamp and paste it on a slip of paper, and when he has a dozen stamps on the philosophy and science agree that there has own infirmity; a matter that he was like en slip he can deposit them in the bank and feel that his capital is draw- then there is no God. ing interest.

Think of the aid to national stability when 7,000,000 people out of about creation. We have said it is foolish to The Vulgate translation, usually very correct, a total population, men, women and children, of less than 40,000,000, have defined as "the Supreme Intelligence," have a direct financial interest in the solvency of the Government! "the Supreme Spirit of the Universe." Think of the tremendous accession to the general happiness when those course directly, but circumstantially) by the word. seven millions feel that their savings are absolutely secure!

However strong and well managed our private savings banks may where, from a Higher Intelligence, for noth- chacun cognoisse ses aenvres." be, their depositors can never feel entirely free from the haunting fear. The second note is more illogical. In effect one may know his works." Here we find the error departed from in three ways: First, by omitting of loss. When one bank fails a shiver runs through the patrons of every other bank in the country, and a blow is struck at thrift from it until I am convinced. which it does not soon recover.

original (Ichethum) certainly means a mark, and whether by stamp or seal or any other way is indifferent; and this is evident from Job xxiv., 16th verse, where we read, "In the dark they through (or into) houses which they (Chetheum) had marked.'

The seventy renders this, set a "seat upon," they intended to rob in the dark, but merely put a mark upon them, as they do to-day. There is no getting out of the fact that the Hebrew does not say God "sealeth up" the hand of man. The words "Bid, Cal, Adam, Chethum, Ledoth, Anashi, Mosheu" certainly mean "In the hand of each, or every, man, he shall put (or he putteth) a mark (or a sign), that they may know, every man (or mortal), his work" (or his trade or employment, or

That is, "Who in St. Jerome renders the verse thus: "He hath The patriarch Job evidently adopted the then the Supreme Intelligence," the hand of all men maketh a sign, that they may placed signs in the hands of all men, that every very prevalent belief in Egypt that by marks in the Supreme Spirit of the Universe."

The Question of Creation.

Editor of the New York Journal: In your issue of the 30th, in reply to an atheist,

you contend he is a fool to deny the existence of a God, of which you say he is ignorant. Is this so? The proper way to approach this question is to inquire whether there has been any creation at all. And on that point philosophy and science agree. It is unthinkable. Matter cannot be destroyed, cannot be annihilated; no necessity for a creation. What becomes of a creator then? the poet Shelley puts it: Nature without and na-M. GOLDSMITH.
